English (Advanced)

Profile

I am an aspiring Web Developer currently studying web development at HackYourFuture. I enjoy creating user-friendly websites and continuously improving my technical skills. My background in mathematics and healthcare has strengthened my problem-solving, communication and teamwork abilities.

Experience

2018-Current

Career Break
Took a planned career break to raise my children.
Studying Danish language to support professional integration and social communication.

2017-2018
Stafford Health Care

Clerk
Managed patient admissions and organized medical records to ensure accurate documentation. Scheduled doctor appointments and coordinated transportation for patients. Handled phone communications and securely faxed laboratory results to physicians. Maintained office supplies and supported daily administrative tasks.

2014-2017
Stafford Health Care

Certified Nursing Assistant
Assisted patients with daily activities including grooming and mobility. Supported patients during meals and provided 1:1 care when needed. Monitored patient well-being and reported any changes to nursing staff. Collaborated with a healthcare team to ensure quality patient care.

2013-2015
Setac Airport

Merchandiser
As a merchandizer, i was working in the gift shops with the responsibility of making sure that magazines and books are refilled and updated on the shelf.

2012-2012
Private school

Mathematics Teacher
Elementary Math teacher skilled in lesson planning, differentiated instruction and helping students develop strong problem solving and critical thinking skills.

Education
